E. Regents’ Test and Exit Exam
C. Biology

D. Chemistry & Physics
1. A motion was made, seconded, and approved to accept the following:
   Create the following course:
   CHEM 2900 Introduction to Chemical Research  0-(3-9)-(1-3)
   Prerequisite: permission of the department head
   Prerequisite or co-requisite: CHEM 1212
   Description: Faculty originated chemical lab-based research project. Written report required.

   **Rationale:** Involving undergraduates in chemical research is an important way to teach chemistry as well as to recruit and retain chemistry majors. The proposed course complements the existing research courses (3900 and 4991) in that it would expand research opportunities to include freshmen students.

   **Effective Term:** Fall 2006

   **CURCAT:**
   Major Department: Chemistry & Physics
   Can course be repeated for additional credit? yes
   Maximum Number of Credit Hours: 6
   Cross-listed courses: none
   Grading Mode: satisfactory/unsatisfactory
   Instruction Type: lab

2. Change the following course description:
   CHEM 1212 Principles of Chemistry II  3-3-4
   Prerequisite: CHEM 1211
   Description: Second course in a two-semester sequence covering the fundamental principles and applications of chemistry designed for science majors. Topics include thermodynamics; equilibria (including complex equilibria); kinetics; electrochemistry; nuclear chemistry; descriptive inorganic chemistry; introduction to organic chemistry; and polymers.

   **Rationale:** An examination of the course content of CHEM 1212 revealed that the topics of complex equilibria is explored in CHEM 2300, Principles of Chemical Analysis, and that the student's understanding of equilibria is not compromised by its omission from 1212. Also, since the impact of polymers on everyday life is immense and students in general chemistry should have an appreciation of them, their inclusion in this course in appropriate.

   CURCAT:
   Major Department: Chemistry & Physics
   Can course be repeated for additional credit? yes
   Maximum Number of Credit Hours: 6
   Cross-listed courses: none
   Grading Mode: satisfactory/unsatisfactory
   Instruction Type: lab
Effective Term: Fall 2006

3. A motion was made, seconded, and approved to accept the following:

**Change the following course description:**
CHEM 3900 Chemical Research 0-(3-9)-(1-3)
Prerequisite or co-requisite: CHEM 2102
Description: Open only to majors in chemistry. Faculty originated chemical lab-based research project. **Written report. Scientific paper required.**

**Rationale:** Since the prerequisite or co-requisite of CHEM 2102 ensures that students taking CHEM 3900 will have sufficient laboratory experience to conduct supervised chemical research, the requirement that they be chemistry majors is unnecessary and restrictive. (For example, pre-med and pre-pharmacy students who have met the pre- or co-requisite of CHEM 2102 have recently been involved in research.) The replacement of "written report" with "scientific paper" communicates a higher expectation for the documentation accompanying CHEM 3900 relative to that for CHEM 2900.

Effective Term: Fall 2006

4. A motion was made, seconded, and approved to accept the following:

**Modify the following Programs of Study:**

**a. Program for the Degree of Bachelor of Science in Chemistry**

**Effective Term:** Fall 2006

E. Criminal Justice, Social, & Political Science
F. Economics
G. History
H. **Languages, Literature, & Philosophy**

1. A motion was made, seconded, and approved to accept the following:

   **Create the following course:**
   ENGL 5200U/G Postcolonial Literature 3-0-3
   Undergraduate Prerequisite: ENGL 2100
   Graduate Prerequisite: None

   **Description:** Literature and theory that emphasizes the interactions between European nations and the societies they colonized.

   **Rationale:** Our previous model for studying literature emerging from colonial situations as merely a component of a “non-western literature” class doesn’t adequately represent the field of postcolonial literature. The literatures that previously figured as “emergent” within the field of “non-western literature” do not hold that status anymore; they constitute a distinct area of focus within an English literature major with their own fully developed critical discourses. We propose this course to expand our offerings and acknowledge discrete traditions within non-western
literature. Graduate students will be expected to supplement undergraduate course work with additional assignments such as oral presentations, leadership of class discussions, advanced investigation of primary texts, and supplementary research projects.

Effective Term: Fall 2006

CURCAT:
Major Department: Languages, Literature, and Philosophy
Can Course be repeated for additional credit? No
Maximum Number of Credit Hours: 3
Grading Mode: Normal
Instruction Type: Lecture

2. A motion was made, seconded, and approved to accept the following:
Modify the following minor:
Linguistics..............................................................15 hours
ENGL 3010 and at least 12 hours of LING electives twelve
hours of approved electives selected from LING 4700, LING 5000, LING 5440, LING 5445, LING 5820, SPAN 4040, SPAN 3050, SPAN 3060, and FREN 3030.

Rationale: Each of the foreign language courses added to the minor deals solely with such concepts as phonetics, dialectology, morphology, semantics, and syntax. Linguistics is a field that crosses language boundaries; the concepts are used to examine all languages. Basic courses in linguistics study examples from many languages, including African, Asian, and Indo-European. Adding these courses as options to the minor will make the minor more attractive to students in other disciplines. Additionally, the minor will become more valuable to students of English by exposing them to linguistic studies in fields other than English.

Effective Term: Fall 2006
